www.linkedin.com/in/marcus-a-hayes

DevOps Software Engineer with 4-year degrees in Computer Science, Economics.

5+ years of experience designing, developing, and supporting scalable full-stack services in an Agile Scrum framework.

Passionate about continuous learning and solving difficult problems

EDUCATION

UNIVERSITY OF NORTH CAROLINA AT CHAPEL HILL

Aug 2018 – Dec 2021

Computer Science, B.A. & Economics, B.A. | GPA 3.67

- UNC Dean's list for majority of semesters
- Studied abroad in Barcelona, Spain for Spring 2020 semester

EXPERIENCE

CISCO SYSTEMS, INC – Research Triangle Park, NC

Multinational tech conglomerate with focuses in networking, IT, and cybersecurity solutions

DevOps Software Engineer (CiscoIT)

Jan 2022 – Present

- Implemented and maintained full-stack applications for enabling internal cloud service provider offerings
- Developed and owned account-syncing service used across ~5k teams for ~235k and counting account mappings
- Facilitated design and integration of service assurance frameworks across 3+ deployed applications
- Oversaw and participated in lifecycle promotion of enhancements, bug/hotfixes, and deployments

Software Engineering Intern (Core Finance IT, Infrastructure and Container Services)

May 2021 – Aug 2021

- Developed monitoring application for daily auditing of ~\$200m worth of transaction data
- Designed chatbot utilizing regressions for generating process execution time predictions
- Containerized and deployed the UI of a legacy permissions-requesting application

May 2020 – July 2020

SENSING EMOTIONS AND KNOWLEDGE GROUP (SEKG) – Barcelona, Spain

Technology startup specializing in cloud-based user experience and playtesting analytics

Software Development Intern

Jan 2020 – Mar 2020

- Detailed optimal methods for play-test feedback communication via informational articles
- Developed biometric processing functions, primarily based around the FFMPEG API
